Universal Credit: factual update, separate team routing and official evidence-upload request

15/10/2026 | Current routing and evidence-access update

To: Universal Credit journal triage, the Claim Review team and the responsible manager. Please route the separate SAR, data-protection complaint, service complaint and appointment matters to the teams identified below.

Please retain this update with my existing claim and complaint records, preserve their original dates, and confirm who is responsible for each outstanding matter. I remain engaged with my claim and review. I am not asking to withdraw or close my claim.

My immediate request is for the current claim/payment position and a usable official evidence route for every file DWP cannot access or accept. Please identify the particular file and obstacle, tell me exactly how and by when to provide it, and confirm receipt by filename.

Please address these three actions first:

- confirm today's claim, review and payment position and identify any actual decision;
- give current official upload instructions and a workable deadline for each named outstanding document;
- give a dated receipt or outstanding-file list, the responsible team and the next response date.

I am willing to provide the required unchanged evidence through DWP's official secure method and follow clear, practicable instructions. Please identify the route and any current action required from me.

This update draws on the 50-page Compilation and the separately identified Claim Review and ICO copies. The Claim Review documents are dated 10 October and give a 9 October historical cutoff; the ICO complaint is dated 14 October and includes correspondence through 10 October. The requests below apply now. References to an answer not being identified describe that supplied record through 10 October; please identify any later or differently delivered answer by date, channel and substance.

1. What I acknowledge, and what still needs an answer

DWP previously gave UC account/to-do upload instructions and, on 15 September, a link with a 20 September submission date. Replies also addressed four months of statements, unedited documents, restricted staff access and availability for up to 90 days. I acknowledge those explanations and the subsequent acknowledgments and referrals. [I06 pp.2-4; Compilation pp.41-43.]

The record also includes my 17 September statement that I was arranging upload, followed by my 19 September statement that I was withholding the prepared statements. I acknowledge that historical delay. The 21 September 09:38 reply preceded the 09:40 completed-task marker. That upload contained correspondence, not the bank statements; I do not present it as compliance with the statement request. [I06 pp.5-6; Compilation pp.44-45.]

The following is a condensed issue list from points 1-9 of my statement in Compilation pp.1-2. Its full wording remains there. Please answer the outstanding substance rather than treating acknowledgment, referral or availability for consideration as a completed outcome.

1. **SAR, 17 July; routing follow-up, 30 July.** No substantive SAR response, reference, identification/clarification request or extension notice is identified in the supplied record. Please confirm DWP's receipt date, responsible Right of Access team, reference, searches, any lawful timing adjustment and its notice, and completion or outstanding disclosure. Preserve the original request's date and scope. [I03 pp.1-2; I05 pp.2-3; I01-I02; Compilation pp.34-35, 38-39.]

2. **Data-protection complaint, 31 August.** This was a complaint about SAR handling, separate from the SAR itself. Please confirm its registration, receipt, reference, handler, enquiries, progress and outcome, or supply the response you say already dealt with it. [I04 p.1; I05 p.2; Compilation pp.36, 38.]

3. **Additional time, 7 and 10 September.** On 15 September an extension request was acknowledged and referred; a separate message provided the later 20 September date. Please identify what extension or alternative arrangement was actually decided, by whom, when and with what reasons, and specify today's operative deadline. [I06 pp.1-4, 7; Compilation pp.40-43, 46.]

4. **Specific privacy questions, 17 September.** Please address the follow-up questions about narrower evidence, incidental third-party data, access, retention and any acceptable alternative route. Explain how the existing safeguards apply to this request, including the distinction between online availability for up to 90 days and any longer retention. I recognise that privacy concerns do not create an automatic entitlement to redact or withhold required original evidence. [I06 pp.2-5; Compilation pp.41-44.]

5. **Service complaint, 17 September, followed up on 10 October.** Please confirm registration, reference, responsible complaints handler, linked documents, expected response date and outcome. Preserve its separation from the 31 August data-protection complaint. [I06 p.5; I05 pp.2-3; Compilation pp.44, 38-39.]

6. **Ownership and consideration, 17/25 September and 1 October.** The 6 October reply said the correspondence was noted and available for consideration. Please state whether each representation has actually been considered, by whom, and the resulting reasons or next decision date. [I06 pp.5-7; I05 pp.1-2; Compilation pp.44-46, 37-38.]

7. **Current claim, review and payment status.** Please give the present position, required action and exact outstanding evidence. If a payment restriction, suspension, entitlement change, sanction or closure exists, identify which action, the legal basis, notice, reasons, effective date and applicable challenge route. The supplied record does not establish that such a decision occurred. [I06 p.7; I05 pp.1-2; Compilation pp.46, 37-38.]

8. **Coordinated request, 6 October at 11:47.** The 14:52 reply referred evidence, timescales, decisions, complaints and extensions to Claim Review. Please now provide the outstanding answers, or identify their separate owners and response dates. My requested 8 October reply date was a requested timeframe, not an agreed extension or statutory deadline. The 10 October follow-ups remain part of the record. [I05 pp.1-3; Compilation pp.37-39.]

9. **Original evidence and appointment explanation.** Please confirm which unchanged original statements, if any, were received, opened and accepted and what remains missing. Separately, I report completing the explanation for the 2 October appointment on 9 October at 20:29. Please confirm its receipt, consideration of good reason, any further information or rearranged appointment, and any actual decision. [D04, physical PDF pp.6/8 and final Appendix C; D05; Compilation pp.13, 15, 25.]

2. Requested practical response for every inaccessible file

Please apply this request to every named recipient or evidence document in Schedule A, including those grouped within a linked folder or ZIP. A general statement that a link does not work leaves the particular outstanding requirement unidentified. Please identify the numbered source entry if you need a supporting document indexed within the fallback sheet.

For each affected item, please:

- identify its Schedule A reference, exact filename/version and intended team;
- state the actual problem: unavailable link, wrong destination, blocked preview/download, password requirement, unreadable or incomplete file, or a route DWP does not accept;
- say whether DWP already holds the same document elsewhere and can link that copy to the correct record;
- activate or provide the current official secure UC upload task, or another authorised DWP delivery method, and identify the responsible team;
- specify required document/account/period coverage, permitted file formats and size limits, any practical support, the current deadline and the outcome of any extension request;
- acknowledge the files actually received by name and date, confirm legibility and record linkage, then state separately whether the evidence requirement is satisfied or what remains outstanding.

One official route may cover several named files if you identify them and provide an indexed receipt. I am requesting a workable route for each item, not asserting a legal right to a different URL for every file. If externally hosted files cannot be used under DWP's process, please say so and give the authorised replacement method.

My request for practical evidence instructions is not conditional on resolving every complaint first. Please do not treat a newly identified access or format problem as proof of refusal without recording the actual obstacle, the instructions given and the opportunity to remedy it. The historical 19 September withholding statement remains part of the record.

3. Fair consideration, accurate records and decisions

Before relying on missing evidence or non-compliance, please identify the actual requirement, notification, period allowed, material still missing and representations considered. Please give me a practicable opportunity to answer any material concern and correct an inaccurate record. Explain the case-specific reasons for the outcome; a general policy link or system label does not itself tell me what was received or decided.

Please preserve my original words and dates. Identify any paraphrase or inference as such and trace it to its source. If you consider a factual statement wrong, identify the passage, your evidence and the correction proposed, and retain my response with the record. Please avoid collapsing access offered, file received, file opened, document linked, representation considered and evidence accepted into one status.

I ask you to consider holding avoidable adverse action or inference while a documented access problem and my request for a workable current route are addressed, and to decide any necessary additional time expressly. This is a request for a safeguard; I do not assume an automatic stay, extension, waiver or acceptance of a private link. Please explain any refusal and any action still required now.

My statement describes the pressure of possible consequences for the income needed for food and housing. That account of impact should be considered without turning warnings into an established sanction or my fear of homelessness into proof that homelessness has occurred. I need an effective opportunity to question the requirements, correct the record and obtain scrutiny while retaining the means to live.

4. Legal basis and its application to this request

Evidence and time to comply. Regulation 38 of the 2013 Claims and Payments Regulations governs information in connection with an award and refers, for regulation 38(2) requests, to regulation 45(4)(a) of the 2013 Decisions and Appeals Regulations. Where regulation 45 applies, notification and the applicable period matter; the latter includes provision for a longer period necessary to comply. Please identify the provision and notice actually relied on and decide my request for time against my circumstances. I do not assert that every review attracts a new fixed period or that this update resets an existing deadline. [L1-L2.]

Original documents and support. DWP's review guidance requires documents without changes or edits and directs claimants to the review agent for help with format or provision. I request that assistance and a current approved route. My supplementary reading copy does not replace the unchanged originals. [L3.]

SAR. UK GDPR Articles 12 and 15 and the ICO's current subject-access guidance require a response without undue delay, ordinarily within one month, subject to lawful timing provisions. A request need not name the right team or use a prescribed form. If DWP received my 17 July request then, the ordinary period would have passed before 10 October; please identify any different receipt date, necessary identity/clarification step, extension and notice rather than treating a later referral as a new request. [L4.]

Data-protection complaint. DPA 2018 section 164A, inserted by DUAA 2025 section 103 and in force from 19 June 2026, requires acknowledgment within 30 days of receipt and appropriate response steps, progress information and the outcome without undue delay. The 30 days are for acknowledgment, not a universal deadline to complete the investigation. Please explain compliance for the separate 31 August complaint, including the receipt date and copies of any response. [L5-L6.]

Privacy and accuracy. UK GDPR Article 5 requires, among other things, relevant and limited processing, accuracy, appropriate retention and security, and accountability. Please address my specific handling questions and any inaccurate factual record. These principles do not alone prove that the UC upload process was insecure or give me a general right to redact required evidence. [L7.]

Fair participation and challenge. Osborn v Parole Board [2013] UKSC 61, paragraphs 67-71, explains the value of relevant information, participation and respect in administrative fairness. I rely on that general principle, not a universal entitlement to an oral hearing in this review. Please explain the actual decision and route for challenging it. GOV.UK gives the usual mandatory-reconsideration period as one month from the decision date, subject to the applicable rules and exceptions; a complaint or SAR does not itself extend that period. [L8-L9.]

For the service complaint, DWP's published procedure describes escalation to the complaints team and a usual 15-working-day aim, currently qualified by high volumes. Please give the actual owner and expected response date for my complaint. This service route is separate from a benefit-decision challenge and the statutory data-protection complaint. [L10.]

5. Routing and response requested

Please give each of these teams its own document and issue list:

- **Claim Review / authorised decision-maker:** present payment and review status; precise evidence, official route and deadline; extension/alternative-route outcome; receipt and sufficiency; actual decision and challenge route. D04, D06-D07 and the Compilation.
- **Right of Access / SAR team:** original 17 July request, 30 July routing, searches, timing and disclosure. D02 and relevant ICO copies.
- **Data Protection complaints / DPO team:** separate 31 August complaint, handling questions, progress and outcome. D03 and relevant ICO copies.
- **DWP service complaints team:** 17 September service complaint, registration, coordination, handler and outcome. D01.
- **Work coach / work-related requirements team:** 2 October appointment and my reported 9 October explanation, good-reason assessment, support and any separate decision. D05.

The ICO materials concern data access and complaint handling. Their inclusion preserves context and does not ask the ICO to decide UC entitlement or sanctions, or make Claim Review the decision-maker for the ICO complaint. Please confirm referral receipt and the accountable owner; tell me if a separate authorised submission is required.

Please acknowledge this update and address the immediate payment and upload-route questions within two working days of receipt if practicable. If more time is needed, please identify the owner, next action and expected response date within that period. This is my requested interim timeframe, separate from statutory duties. Please respond in writing through the journal where practicable, with an accessible alternative where required.

For each scheduled file, a usable response should identify: file/reference; team; date received; opening/legibility; case linkage; consideration or next action; evidence sufficiency where relevant; missing action; official route; deadline; and responsible handler.

Toms Jansons

Schedule A. Named documents and access references

The addresses below are claimant-supplied or recorded in the source copies. Please test the intended file, not just the folder. Their listing does not establish live access, DWP receipt or approval of private delivery. Please apply section 2 to every unavailable item. The complete address, including the part after '#', is needed. Bank access details and passwords should be exchanged only through an appropriate secure, intended-recipient channel.

A1. Five separately addressed DWP documents

D01. 01_DWP_Service_Complaints.pdf - 8 PDF pages. DWP service complaints team.

https://drive.proton.me/urls/3N6AJNEZ1M#LxxTILSOb5WT

D02. 02_Right_of_Access_SAR.pdf - 9 PDF pages. DWP Right of Access / SAR team.

https://drive.proton.me/urls/A0HT4D3QYR#H6WrVSPILicw

D03. 03_Data_Protection_Complaint_DPO.pdf - 10 PDF pages. DWP Data Protection complaints / DPO team.

https://drive.proton.me/urls/HZVXXYQE0M#QKEnc402igQi

D04. 04_Universal_Credit_Claim_Review.pdf - 18 PDF pages. Claim Review / authorised decision-maker.

https://drive.proton.me/urls/J5X3TW96AG#lz9DQw8vXwqt

D05. 05_Work_Coach_Appointment.pdf - 4 PDF pages. Work coach / work-related requirements team.

https://drive.proton.me/urls/RE5TJ0S1RR#MExO45NwH27t

These five files match across the two supplied frontend packages and the private signed set. Page references here mean physical PDF pages; the Claim Review copy has selective printed numbering. Its 18 supplied pages should not be treated as a continuously numbered 21-page document.

A2. Restricted financial evidence - authorised Claim Review handlers only

D06. 06_RESTRICTED_Bank_Evidence_Reading_Copy_48p.pdf - 49 PDF pages: one cover and 48 supplementary reading-copy pages. My claimant-held private signed set contains this copy; its presence there does not establish DWP delivery. Please arrange an official restricted handover if it is required. This clarifies the reading-copy-absence statement in Compilation pp.5/7: a copy is now identified in the expanded document set. The later journal's LINK VI wording does not itself establish the exact intended file/version or a usable destination.

D07. Unchanged original bank statements - separate from D06. Please specify each required account, period, original file and any missing coverage, and provide the current official secure route. The originals themselves are not reproduced in this journal or established by the reading copy; access, completeness, receipt and acceptance require confirmation. Please keep both D06 and D07 restricted to authorised evidence handlers.

A3. ICO data-protection record - seven named PDFs

I01. 01_ICO_Submission_2026-10-14.pdf - 5 pages; Compilation pp.27-31.

I02. 00_ICO_Evidence_Index_2026-10-14.pdf - 2 pages; Compilation pp.32-33.

Recorded ICO LINK I for these items:

https://drive.proton.me/urls/D59YGTT5Z8#U9MwSg0DINc1

I03. E05_SAR_17_July_2026.pdf - 2 pages; Compilation pp.34-35. This is statement E01, despite the filename prefix.

https://drive.proton.me/urls/SQHER10DB0#vEZhxMrz9rRA

I04. 03_Data_Protection_Complaint_Account.pdf - 1 page; Compilation p.36.

I05. 03_October_Routing_Requests_Snapshot.pdf - 3 pages; Compilation pp.37-39.

Recorded ICO LINK III for these items:

https://drive.proton.me/urls/T03K1M7BAC#KfJaOmSnwtRE

I06. 04_Chronology_and_DWP_Response_Account.pdf - 7 pages; Compilation pp.40-46.

https://drive.proton.me/urls/ABQS4QWA4W#Yn26R9KxyQk7

I07. 05_Impact_and_Supporting_Evidence_Account.pdf - 3 pages; Compilation pp.47-49. This is the separate impact document, not the SAR file named E05.

https://drive.proton.me/urls/R5ZQWDNDK8#uyJLYF8UN2BO

These are prepared claimant-held accounts, indexes and journal reproductions. Please compare them with DWP's original records. Their preparation or inclusion in the ICO pack does not itself prove ICO receipt or establish DWP's records in full.

A4. Consolidation, historical documents and dated link corrections

B01. Compilation-Unresolved-Requests-10-October-2026(2).pdf - 50 pages. The statement is pp.1-2, evidence map p.3, fallback sheet p.4, lane/file map pp.5-6, Claim Review copy pp.8-25 and ICO copies pp.27-49. Please identify the exact file if the interim folder cannot be used:

https://drive.proton.me/urls/Y5TDR964TR#Lbs8fgfLFc9E

B02. Link Fallback References / clean reference sheet - Appendix B, Compilation p.4. **Routing amendment 15/10/2026:** the reference in section 7.1, Compilation p.19, now opens that embedded page, with a return link. Its 40 indexed source entries remain available in the sheet.

B03. Separate ICO_FILES folder - this address identifies the separate folder, not the one-page fallback sheet:

https://drive.proton.me/urls/5C9P3KEJG0#pRnbl0vT0WrM

H01. Claim_Review_Formal_Factual_Response_External_2026-09-07, identified in the historical index as R7, two pages. **Link update 15/10/2026:** use this claimant-supplied route; the older route remains in the historical source entries. Please confirm the intended document:

https://drive.proton.me/urls/TZ4AGY5V98#ytcP8GDadAFI

H02. Claim_Review_Formal_Factual_Response_External_2026-09-21, identified in the historical index as R21, two pages. Please confirm the intended document:

https://drive.proton.me/urls/XXWCPW0QQW#Fxa1SeNtYVxm

R01. SUBMISSION/Claim_Review_Final.pdf - 16 pages in Claim_Review_Submission_Ready_Archive.zip. R02. SUBMISSION/Claim_Review_Legal_Basis_Final.pdf - matching 4-page legal annex in that archive. These are an earlier prepared version, distinct from D04. Please identify any version relied on and provide an official route if these files are needed. The archive's preparation is not proof that it was filed or received; its retained predecessor files should not replace the named SUBMISSION versions silently.

J01/J02. Journal_Submission_2026-10-09_TEAM_ROUTED.md - J01 is the version in Claim_Review_LINK_VI_Five_Team_Journal_Frontend_2026-10-10-1(4).zip; J02 is the earlier wording in Claim_Review_Journal_Frontend_Five_Teams_2026-10-10.zip and Claim_Review_Private_Complete_Signed_Set_2026-10-10.zip. Their restricted-delivery descriptions differ. This 15 October update clarifies that description; please preserve the dated records and route each of D01-D05 separately. It does not assert an unverified LINK VI destination.

S01. evidenced_source_archives.png - folder-list snapshot, reproduced in Compilation p.50:

https://drive.proton.me/urls/PFV2E66KJ8#5VRtzWlHUIiZ

It shows filenames and displayed sizes; it does not itself prove remote file bytes, permissions, delivery or opening.

The Compilation records my reported read/write access window of 15 October 2026, 07:15-07:30 BST (UTC+1). That report is separate from confirmation of DWP access. If sharing ends after 90 days, I can reinstate access by renewing sharing or providing a new link. Please identify a failed item promptly and give the official route requested rather than relying on continued private-link availability.

Schedule B. Official legal and procedural references

References checked on 15 October 2026. These identify relevant law and published guidance; the actual notice, facts and applicable route still need to be identified for this case.

L1. Universal Credit etc. (Claims and Payments) Regulations 2013, SI 2013/380, regulation 38; distinguish regulation 37, concerning a claim.
